BIG TRADE DAYS TO BE FEATURED

Ada Merchants Take Steps
to Bring More Trade to
City Every Month.

At a well attended meeting of the Ada Merchant's association at the office in the Shaw building this morning, a resolution was unanimously adopted designating the second Monday in each month as Special Trades Day, the first one to be held on July 11.

It is the intention of the merchants to advertise the special bargains to be obtained on that day through out this entire section of the state, including all the small towns in a forty mile radius. It is to be made a regular affair and to become a feature of Ada's commercial life.

Secretary of the association has been working on the project for some time. The merchants were enthusiastic at the meeting this morning, and all expressed the desire to work together to make more business for Ada and for everyone here. It is expected that every merchant who is a member of the association will have a part in the publicity and thereby profit from the enterprise and industry of the association.

Many cities in the southwest have become well known as trade centers on account of certain trade days. It is pointed out that Ada can do better than all others, on account of her favorable location and the high type of stores here. It is the belief of those interested in the project.

Brooms Help Gospel in Spiritual Works This Negro's Belief

(By the Associated Press)
TULSA, June 23.—Selling brooms and preaching the gospel is the dual occupation of Parson Honeaker, an old negro preacher who lives in Tulsa.

According to "Brother" Honeaker the two go pretty well together, as one enables him to do his duty by the negroes who need spiritual training and the other enables him to keep body and soul together. "You see dese here niggers ain't got much of dis world's goods, 'specially since de riot, an' I can't depend on mah salary to keep de larder replenished," the old parson explained. "So I jes sells brooms to make a livin'."

"Brooms, brooms" he calls in a deep resonant base voice as he goes up one street and down another carrying three or four of his wares. After the day's sales are made, he buys a few groceries and makes brooms and preaches some more until the larder again runs low and forces him out to sell more brooms.

May Pardon Jack Johnson in Time to See Big Bout

(By the Associated Press)
WASHINGTON, June 23.—Attorney-General Daugherty indicated today that he might consider a pardon for Jack Johnson, former heavyweight champion now serving a year sentence at Leavenworth, Kansas, for violation of the Mann Act, before the day set for the Dempsey-Carpenter fight. Mr. Daugherty said that Johnson had been a model prisoner and a "liberty bonus" for him is a way of shortened time had been suggested, as his time expires July 7.

The attorney general could not consider pardoning Johnson to enable him to attend the championship fight, but that of course if any clemency was shown, Johnson's time would be his own.

LET CONGRESS DECLARE WAR SAYS FEDERATION

(By the Associated Press)
DENVER, June 23.—The convention of the American Federation of Labor today voted down a proposed act for amendment to the constitution of the United States taking the power of declaring war from congress and placing it in the hands of the people through a referendum vote.

The decision, which went to roll call after a stormy debate, also provided that:

"All those voting in favor of a declaration of war be compelled to take up active prosecution of the same, before those who voted against declaration of war."

The official roll call showed 21,742 against the war referendum and 14,530 for it.

WAS HE JOKING OR
WAS HE SERIOUS?
"Bill" Elliott was heard to remark this morning that if the rain keeps up, the water will drown all the boll weevils in Pontotoc county.

CLASSES GIVING PLACE IN MEET

Some Rural Educators Kept
Away by Rains; Good
Interest Shown.

Starting half day behind schedule, the federal and interstate conference on rural life and education now going on at the Normal school held its first session following the noonday luncheon and social hour Wednesday. The opening meeting was in charge of Supt. R. H. Wilson, state superintendent of schools, who is here in the interest of rural school work.

Addresses were made by Rev. H. A. Trapp of Rose Bud, Ark., who spoke on the country church and country schools, Mrs. Grace Greves Truax of Sioux Falls, S. D., who spoke on training teachers for rural community leadership through singing. The afternoon session was well attended and speakers were given their first general introduction to the student body at this time.

Classes at the Normal have been suspended today to give all students an opportunity to attend sessions and to hear all addresses. Bad weather today caused attendance to be somewhat smaller than it would have been but good crowds turned out.

Several members of the party, among whom were Prof. E. A. Duke, J. W. Bridges, Prof. J. C. Muerman, Hon. J. B. Brown, Mrs. C. F. Beverly, Prof. C. M. Howell and others failed to arrive yesterday, some on account of being held away by rains. Whether they will be here for any of the conference could not be learned.

Speeches Important.

The session this morning was devoted to speeches by various members of the party. Some of these were: The Value of Hot Lunches, by Miss Maude Richmond; Importance of Music in the Conservation of Rural Health, by Mrs. Grace Greves Truax and Mrs. Martha Hyde; The Value of Plays and Games to the Development of Rural Health, by Captain Francis Wyatt; Health Education in Rural Schools, by Miss Edith A. Lathrop, and other talks, after which the meeting adjourned for the noon luncheon.

The afternoon session, beginning at 2 o'clock, proved as successful as could be expected and the attendance was reported good. Interest in the work is growing as the students are taken deeper into the affairs to be considered in working out problems for rural communities. Teachers who expect to work in rural communities next year will get valuable pointers for the lectures being given on almost every phase of rural life, it is planned.

Sessions last night and this evening will probably be the best attended as many citizens will be present at this time. A rural drama "Back to the Farm," was to have been staged by the dramatic art class of the Normal but on account of the failure of the books to arrive it will not be given. No report was made as to what would be given in its place, but it is thought that various addresses on new subjects will be used.

Tomorrow Best Day.
Tomorrow promises to be the best day of the three and reports from the county superintendents will be one of the leading features. Rural school teachers and others will be given an opportunity to take part in these sessions, it is reported. At addresses and demonstrations will be made tomorrow afternoon and community singing, plays and games, and other means of recreation will constitute the night session.

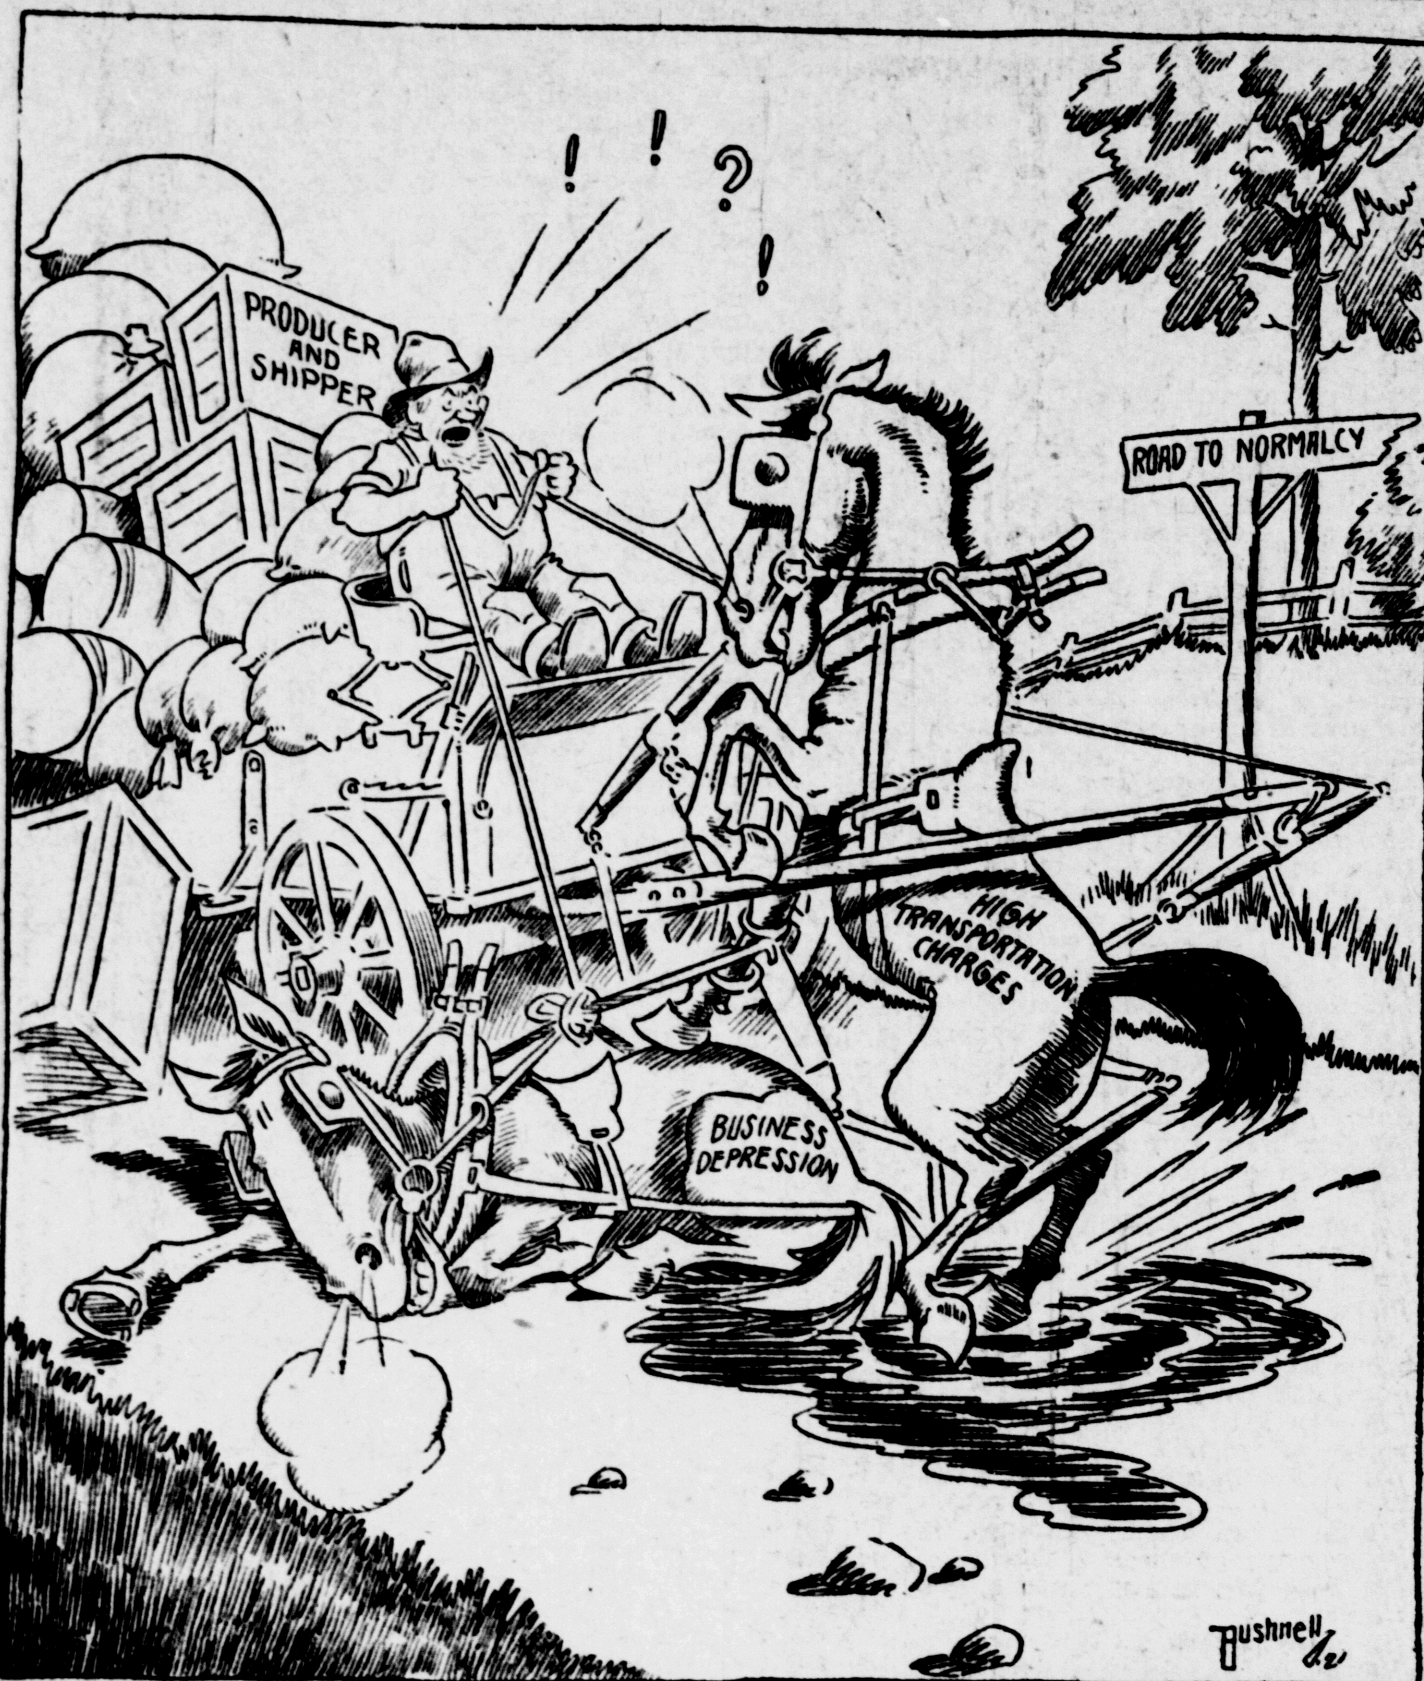

On account of the late arrival of some members of the McBrien party, and others, the program issued changed to fit the work better and has continued without a hitch. Those of the city who are interested in the work are welcome to attend any of the sessions, which begins at 9:30 a. m., 2 p. m. and 8 p. m.

Some members of the party now in the city are J. H. McBrien, Prof. L. D. Borden of Austin, Texas, Prof. A. C. Frederick of the state normal school at Natchitoches, La., Mrs. Sue Clayton Weaver of Millersburg, Ga., Miss Georgia McBrien of Ottawa county, Okla., Miss Edith A. Lathrop, specialist for the U. S. bureau of education at Washington, D. C., Rev. H. A. Stroup of Rose Bud, Ark., Mrs. Grace Greves Truax of Sioux Falls, S. D., Miss Martha Hyde of Miami, Okla., Miss Maude Richmond of Oklahoma City, Captain Francis S. Wyatt of the state normal school at Alva, and Hon. R. H. Wilson, Oklahoma City.

INJURY, THOUGH SLOW, MAY BE AN ACCIDENT

(By the Associated Press)
OKLAHOMA CITY, June 23.—A decision declaring that an injury may be classed as an accident, even though the process is slow and the victim is unaware that he is being injured, was handed down today by the state industrial commission, according to Baxter Taylor, chairman. The decision was in favor of Carl Kincard against the American Glass Casket company of Ada.

HOW CAN A BODY MAKE ANY HEADWAY WITH SUCH A TEAM!

MORE MONEY PUT INTO ROAD WORK

Total of \$23,644.85 Spent
From Two County Funds
in Last Year.

A total of \$23,644.85 from two county funds alone, has been spent on roads in Pontotoc county since the beginning of the fiscal year July 1, 1920, according to a report submitted today by D. W. Swaffar, county treasurer.

These two funds are the state highway department fund, from which \$10,708.84 has been spent on the construction of bridges and roads, and the county road maintenance fund, from which \$12,936.01 has been spent on the upkeep and repair of roads and bridges in the county, the report indicates. These figures do not take into account much money that has been spent by township warrants and by individual expenditure, according to the county treasurer.

This total, from the two county funds alone, is almost 25 per cent more than was spent from the same funds last year, officials have estimated. All this money has been generally distributed over Pontotoc county as nearly as possible. Increased interest has accompanied increased expenditure in the building and maintenance of roads and bridges in all parts of the county, according to an opinion held by officials.

Heaviest expenditures of county road money, made necessary by the construction and up-keep of a large amount of bridges and rough road, has centered somewhat on the Ada-Alton road and the Ada-Stratford road, which are reported to be most expensive in the county by R. H. Erwin, county clerk. Other roads on which considerable money has been spent since the beginning of this fiscal year are the Ada-Stone wall road, the Ada-Roff road, some on the Ada-Francis road, and some on the Ada-Bryn and the Ada-Bee roads. Part of the traffic from Ada to Francis goes over a stretch of the Ada-Alton road, however, making expenses on this road more it was explained.

EMPLOYMENT OF SAUNDERS REFUSED BY BANKERS

OKLAHOMA CITY, June 23.—Employment by the Oklahoma Bankers association of John Saunders was today refused. Saunders was a private detective in the employ of the association. He was acquitted of a charge of murder of Earl Marlin, whom he shot on the streets in March.

The case was given much publicity and his picture was printed in various papers, making him known to every band of robbers, according to Eugene P. Gum, secretary of the bank association.

Tonight and Friday cloudy, probably showers.

COMMENT QUIET ON SIMS' NOTE

Denby May Require the Ad-
miral to prove He Was
Misquoted.

(By the Associated Press)
WASHINGTON, June 23.—Rear Admiral Sims handed to Secretary Denby a written statement about his recent speech in London in which he was quoted as criticizing Irish sympathizers in the United States, and which resulted in his recall from leave. The secretary has the statement under consideration and in the meantime all comment is withheld.

Returning here yesterday from London, Admiral Sims reported to Mr. Denby at the navy department this morning and was directed in a written order to submit a statement. The officer reiterated that he had been misquoted in press dispatches reporting the address. He was with the secretary only a minute or two.

The admiral refused to comment on the case in any way but Secretary Denby said after the interview with the officer, "Admiral Sims has denied the accuracy of the statements attributed to him. He stated that he was incorrectly quoted."

"I gave him a written memorandum quoting those statements and asked him to inform me in writing where he was misquoted and to tell me if he could, what he did say in that speech. I asked him to give me an early reply. My memorandum was offered to Admiral Sims in the form of an order."

It was indicated at the department that Mr. Denby would require Admiral Sims to show that he had been misquoted in published reports of his London speech, and would not be content with a repudiation of certain words.

AMERICAN AIR PLANES FOR MEXICAN BORDER PATROL

(By the Associated Press)
NOGALES, Ariz., June 23.—Eight American made airplanes have been delivered at Nuevo Laredo, Mexico, for the border patrol of the Mexican government, and are to be put into that service as soon as they can be assembled. All the planes are painted blue, which has been adopted as the distinctive color for Mexican border patrol planes.

The United States government already maintains an air patrol along the border.

NOTICE MASONS.

Ada Lodge No. 119, A. F. & A. M., will meet at 2 o'clock Friday, June 24th, to attend the funeral of Brother C. C. Camp. John Thrasher, W. M.

ROAD BOOSTERS OUT FOR QUOTA

Committee of Twelve Local
Men Plan Drive to
Raise \$1,500.

Beginning at 8 o'clock Friday morning, the committee appointed by the Chamber of Commerce, Lions Club, and Good Roads Motor Club will start a campaign to raise Ada's quota of \$1500 for the purpose of helping to mark the Cotton Belt Highway. Twelve men have been appointed to serve on this committee and a meeting will be held tonight at the Ada Title and Trust company office to decide districts for each group of men.

At a meeting in Okmulgee of those interested in the highway some time ago the total amount required to mark the highway was figured out. Each town on the road was assessed a certain amount of the money required. Ada's quota being set at \$1500. The importance of the highway to the city is believed to be great enough to cause the money to be raised in a very short time, those in charge believe.

Considerable work on the marking campaign has been done but much more is required to get the road on the map, it is reported. Reports being received from other towns in the state to be affected by the highway show that much interest is being shown in the drive for funds and success is being met by others. Everybody here who are interested in the highway is asked to cooperate with the committee tomorrow so the funds can be quickly and easily raised.

The work on the road near Fitzhugh is progressing nicely and steps are being taken to have the Fitzhugh hills cut down and properly drained to insure a good road in district. Work is being done on the highway all along the line of the road, according to reports being sent to Ada.

Those who will serve on the committee tomorrow are Walter Wray, W. G. Moser, Layton Chilcutt, F. L. Finley, C. A. Zorn, H. B. Roach, P. E. Alderson, Bud Gregg, L. A. Ellison, E. W. Coffman and Byron Sledge. The sooner the money is raised and put to use, the sooner the road will be marked and put on the map. This will cause a stream of tourists to pass through Ada continually, it is pointed out.

EIGHT MEXICAN SOLDIERS ARE KILLED BY BAND

LAREDO, June 23.—Further official reports of a battle between Mexican federals and 50 alleged bandits south of Nuevo Laredo, last Tuesday, gives the soldier loss as dead eight and two wounded. The bandit casualties are still unknown here and no further trace of the band has been found by the pursuing federal forces, reports said today.

GEORGES' AIDE HERE TO SCOUT

Carpentier's Right Hand
Man Sees Dempsey in
Training.

(By the Associated Press)

ATLANTIC CITY, N. J., June 23.—Georges Carpentier will be given a closeup account of Jack Dempsey's fighting style and condition today by Pierre Mallet, a close friend and advisor of the French champion, who watched Dempsey go through a forty-minute workout of bag punching and boxing yesterday afternoon.

Mallet, who has been the friend of Carpentier for ten years, and who has been with him in all his important contests, was impressed with Dempsey's condition and left hand hitting. The French visitor made no attempt to conceal his identity or the object of his visit and said nothing but praise for the heavyweight champion.

"He appears to be in wonderful condition," Mallet said, "and a magnificent specimen of a man."

Dempsey was not told of the presence of the visitor in camp until today when he expressed disappointment that he did not meet him.

"I am glad to be fair," the champion said. "Any member of Carpentier's camp is always welcome. If I had seen him I would have invited him to stay to dinner with me. We have nothing to conceal here. Even Carpentier and his manager would be welcome. I am glad Carpentier thinks he is going to win. I want a real fight."

Mallet, who speaks English perfectly, never took his eyes off Dempsey while the title holder pounded the heavy swinging bag and boxed four lively rounds with Joe Benjamin, a lightweight and Babe Herman, a featherweight.

He timed Dempsey as the fighter punched the bag and nervously puffed a cigarette as the champion drove vicious rights and lefts against the heavy bag, sending it flying back six or seven feet.

His footwork against the two boxers was fast and his hitting accurate, but he made no attempt to put any drive into his punch.

"He is splendid, a super-athlete in wonderful condition," was Mallet's comment after the pugilist had finished boxing, his sunburned body gleaming with perspiration.

"Do you think Carpentier will win?" asked an interviewer. "Certainly," replied Mallet. "Georges always enters a match with confidence. You know he has met big, strong boxers before. We have not underestimated Dempsey. Carpentier is preparing for him along well-laid lines."

Heavy Rainfall Is Reported in East Part of Oklahoma

(By the Associated Press)

MUSKOGEE, June 23.—One of the heaviest rains of the season fell in eastern Oklahoma during the night and is continuing this morning. In this county the rain measured an inch at 7 a. m. today. Indications are for more rain. Harvest of early potatoes is being seriously delayed, according to growers.

HOW TO HANDLE YOUR COMPETITOR

By DR. FRANK CRANE

It is a mistake to suppose that you have to fight your competitors. Nothing was ever permanently gained by fighting. For fighting of any kind is pure destruction.

Your competitor does not have to be your enemy. He can be your friend.

Competition does not kill trade; it builds trade, stimulates trade; it builds trade, and makes new trade.

This is based on the natural law that no one person can suit everybody. No man can get all possible business in any community. His personality attracts some and repels others. Wherever there is a lot of business for one man there is business for somebody else.

This is proved by the fact that in any big city business houses in the same line group together. We find most of the piano houses in one part of the town. Most of the automobile concerns are strung along a certain section of Broadway, New York. The silk merchants, the hat manufacturers, and son on, each have their district. This proves that in the practical working out of business it pays a man to locate in the neighborhood of his competitors.

It is not true that there is just so much business to be had, and that a rival cuts your trade in half. As a rule the more tradesmen the more trade. A good lively competitor will increase your custom.

Two grocers in the same block will do more business than if there were only one, and if the other grocery is good it is a more valuable competitor to you than a poor one.

"Where the carrion is there the eagles are gathered also." So runs the proverb. And where no eagles hover there is slim picking.

Don't hate your competitor. Hate is always expensive. Get acquainted with him. You may learn something.

Don't knock your competitor. It sounds bad, and it is bad. Be a good sport. Play the game. Keep good natured.

Beat your competitor if you can, but remember that the surest way to beat him is to sell better goods, give prompter service and have more courteous work-people. Don't fight by cutting prices. Keep your margin of profit fair.

If your competitor lies about you, or uses underhand methods to harm you, don't worry. He is cutting off his nose to spite his face. He cannot fool all the people all the time. Straight business and good nature win out always in the long run.

Your competitor will do you a deal of good if you keep your eyes open. He will keep you from slumping. He will make you energetic, careful, more attentive to business, and altogether will be a good tonic for you, if you know how to use him.

There is business enough for both of you. Go after it.

PRAYER IS SHOWN AS MIGHTY FORCE

Most Unhappiness Lies in
Spirit, Dawson Tells
Audience.

Before a crowd which filled the Baptist church last night in spite of bad weather, Dr. J. M. Dawson, revivalist from Waco, Texas, threw out an urgent appeal for a stronger reliance in prayer as the biggest hope for a successful meeting.

Dr. Dawson is being assisted in the revival by his wife, who, for the first time is doing actual speaking on subjects important to the meeting. He said, Mrs. Dawson took the pulpit for a few minutes last night to explain a prayer card which will be used throughout the meeting. Although she is not a preacher in any sense of the word and does not aspire to be, she always has been his right hand helper in conducting revivals or ordinary pastorate work, Dr. Dawson said.

Using his text, Mark 9:29, "This kind can come forth by nothing but by prayer," the speaker drove home the necessity of close contact with God in all walks of life. Referring to the miracle in which a dumb and deaf spirit was cast out, Dr. Dawson said: "Homes are not made unhappy by physical discomforts nor even by illness and deformity. I'll venture to say there are homes in Ada that have not all the necessities of life, yet are happy. And beside there are other homes, wealthy homes, perhaps palatial, where bones are hanging in the closets and shadows are on the floor."

Biggest troubles of the home and the community do not lie in financial worries but in troubles of the spirit, he declared. "Prayer has a three-fold arm. It reaches God and keeps His attention centered on us; it reaches us, and beneath it benevolent influence the human spirit unfolds and blossoms like a rose; and it reaches others, restraining them from doing evil, inciting them to goodness, and impelling them to God," he continued.

Prayer services for 30 minutes before each evening meeting will be made an important part of the revival, according to announcement made last night. This service will start at 7:30 and the regular preaching services at 8 o'clock. When weather permits, services will be resumed outdoors.

GREEKS MAY ACCEPT AN OFFER OF MEDIATION

(By the Associated Press)

ATHENS, June 23.—June 22, indications pointed toward acceptance by Greece of the offer of Great Britain, France and Italy to mediate between the Greeks and the Turkish Nationalists in an effort to forestall war in Asia Minor.

Report Anti-Beer Bill.

(By the Associated Press)

WASHINGTON, June 23.—The Willis-Camel anti-beer bill, with minor amendments, was reported today by the house judicial committee. The rules committee is expected to give it the right of way in the house within the next few days.

THE WOMAN WHO UNDERSTANDS.

Somewhere, she waits to make you win,
Your soul in her firm white hands—
Somewhere, the gods have made for you
The woman who understands.

As the tide went out, she found him
Lashed to the spar of despair—
The wreck of his ship around him,
The wreck of his dreams in the air—
Found him, and loved him, and gathered
The soul of him to her heart;
The soul that had sailed an uncharted sea—
The soul that sought to win and be free—
The soul of which she was part;
And there in the dusk she cried to the man,
"Win your battle—you can—you can."

Helping and loving, and guiding—
Urging when that was best;
Holding her fears in hiding
Deep in her quiet breast;
This is the woman who kept him
True to his standards, lost—
When tossed in the storm of stress and strife
He though himself thru with the game of life
And ready to pay the cost—
Watching and guarding—whispering still,
"Win—your can—and I know you will."

This is the story of ages—
This is the woman's way—
Wiser than seers or sages,
Lifting us day by day—
Leading us on with a courage
Nothing can daunt or dim;
Treading life's path wherever it leads,
Lined with flowers or choked with weeds,
But ever with him—with him;
Guardian, comrade and golden spur,
The men who win are helped by her.

Somewhere she waits, strong in belief,
Your soul in her firm white hands;
Thank well the gods when she comes to you—
The woman who understands.

—Luther Harrison.

COLLEGE ATHLETES GET START IN TRACK MEETS

CHICAGO, April 8.—Many of the athletic stars of the college world began their rise at the University of Chicago's annual interscholastic meet, Athletic Director A. A. Staggs said today, commenting on the event, that will be reopened May 28 after a war intermission.

This, Coach Staggs said, was due in good part to the fact that many of the interscholastics had been chiefly state meets, while the Chicago meet had through its location at the hub of the middle west become practically the national interscholastic track meet of the country.

"Archie Mucks, the University of Wisconsin star, who holds the world record, started his world famous career at the Chicago interscholastic," Mr. Staggs remarked. "He came from a high school at Oshkosh, Wis., and won the discus that year, 1910. The next year he took the discus and shot put and won the individual championship."

"Larson, who recently made a world's record high jump in the west, had only a local reputation when he put in his entry from St. George, Utah. He proved the best in the jump at the 1914 meet."

"Ned Merriam, now track coach at Ames, Ia., hardly knew what a track shoe was when he won the quarter mile in 1905. He ran around the outside track and did it in 52 4-5. Merriam later won the Western Conference quarter for three years and the conference low hurdles for two years."

"Another high school boy unknown in this section when he came to Chicago was Carl Johnson, who later became the Michigan star and track captain. He came on in 1915 from Lewis and Clark high school in Spokane and took the broad jump with 23 feet 4 1/2 inches, the best ever made in the 16 years the meet had been held."

"Ira Davenport, the Chicago runner, who later set Western Conference records in the quarter and half mile, one of which still stands, was practically an unknown high school athlete from Oklahoma when he first ran in this interscholastic."

ATHLETES MAKE HIGHEST RECORDS AT UNIVERSITIES

(By the Associated Press)

CHICAGO, April 8.—The best marks that have been made by high school athletes in the University of Chicago's interscholastic meet stand up with the highest college performances, it is noted here in connection with resumption of the meet on May 28 after a lapse of three years. Most of the high school record makers later won

fame in colleges from east to west or in the Olympic games.

Records of the University of Chicago meet in its 16 years are these: 100 yard dash—C. Hoyt, Greenfield, Ia., 1913, 9 4-5.

220 yard dash—C. Hoyt, Greenfield, Ia., 1913, 21 4-5.

440 yard run—J. Davenport, University of Oklahoma preparatory school, 1908, C. Kasper, Shattuck, Faribault, Minn., 1914 and L. Barden, Ottumwa, Ia., 1915, 51 1-5.

880 yard run—C. Kasper, Shattuck, 1915, 1:58.

1 mile run—G. Cowley, Muskegon, Mich., 1909, 4:53 1-5.

120 yard high hurdles—H. Whitely, Azusa, Cal., 1912, 15 2-5.

220 yard low hurdles—F. Loomis, Oregon, Ill., 1915, 25.

12 lb. shot—L. Talbot, Mercerburg Academy, 1907, 50 ft. 13in.

12 lb. hammer—L. Talbot, Mercerburg Academy, 1907, 194 ft.

High jump—W. Addams, Manteno, Ill., and J. Pratt, Lane Technical high school, Chicago, 1916, 6 ft. 3-16 in.

Broad jump—Carl Johnson, Spokane, Wash., 1915, 23 feet 4 1/2 in.

Discus—A. M. Mucks, Oshkosh, Wis., 1911, 136 ft. 5 in.

Pole vault—P. Graham, University High, Chicago, 12 ft. 7 1/2 in.

Javelin—F. Wilcoxen, Oak Park, Ill., 1917, 162 ft. 7 1/2 in.

Steps Are Taken to Alter Seamen Act

(By the Associated Press)

DETROIT, Mich., April 8.—Representatives of chambers of commerce, shipping interests and vessel operators from all chief Great Lakes ports met here today for a two day session, to seek alteration of the La Follette seamen's act as it applies to the lakes.

An amendment to the seamen's act is to be drafted. Soon after the conference a delegation chosen from representatives to today's meeting will go to Washington and seek to have the amendment acted upon favorably by congress.

Vessel operators on the Great Lakes have contended the seamen's act as it applies to lake ships works a hardship and that certain provisions should be eliminated. Among the proposed changes are those requiring two, instead of three watches on trips of between eight and sixteen hours, and recognition of certified lifeboat men as bona fide members of crews. Vessel owners declare provisions of the present law compel them to carry a larger number of men than is necessary and that therefore the number of passengers that may be carried is reduced to a point where financial loss occurs. It is contended also employment of watches on vessels while the ships are tied up in a port is unnecessary.

Prominent shipping, vessel and business men from various lake cities were to speak during the two day session.

Magazine, Stores and Big Hotel Fade as "Cousin Harding's" Jailed

The Chicago Harding family. Left to right: Mrs. Ephraim Harding, mother of Pearl, press-agented as the "White House Baby"; Ephraim Harding, the father, and Pearl. Below: Everett Harding, charged with impersonating a federal official. The alleged auto-graphed photo of the president Pearl holds reads, "To Everett Harding with a kinsman's best wishes."

WASHINGTON, April 9.—If Everett Harding, "eccentric" young Chicago man, hadn't tried to place his sister, Pearl, right plump in the White House without even consulting the president or Mrs. Harding the young man might still be winning position, money and prestige as "Warren's cousin." His plans for organizing a chain of "Harding" candy stores, building a "Harding hotel" and establishing himself generally might have been developed further. But his clever ideas are halted.

After masquerading for more than a month as a cousin of President Harding and assistant secretary in the executive office, Everett Harding, 28 years old, was arrested here by Secret service operatives charged with impersonating a federal official with intent to defraud.

President Harding became impatient over interviews given by Everett Harding and members of his family, in which they were quoted as saying they were intimate with the chief executive and had been invited to the White House.

Everett was arrested following the dispatch to Chicago of James Sloan, chief of the president's bodyguard, who was sent to Chicago upon the direct orders of the president himself.

Chicago Broker's Son.

Everett is the son of Ephraim Harding, real estate broker. He

was arrested by secret service operatives Peter Drantsberg and William Harper. They found him conducting a candy concession in the Broadway of the booth was a streamer bearing the words: "Harding's Famous Candies."

Everett was taken to the federal building, where he admitted the false impersonation as assistant secretary to the president, but said he was distantly related to him. He waived examination, and in default of \$5,000 bonds fixed after he had pleaded guilty before United States commissioner Mason, was taken to the county jail in Waukegan.

He insisted, while in Washington for the inauguration, that he and Pearl Harding, his sister, had visited Mr. and Mrs. Harding in the White House. One of young Harding's possessions was a photograph of the president, across which was inscribed, "To Everett Harding, with a kinsman's best wishes."

At his home was found a guest register and among the names of scores of leading politicians found as saying they were intimate with him. At the time of President Harding's inauguration it became known that young Everett negotiated for a private car to take him, via the Pennsylvania system, to Washington. He said he was the president's cousin, and had with him Pearl, his sister, who, he said, was to be the "baby of the White House."

Together with twenty-two friends

of the colorful, emotional story and the opulent background. As in his previous productions, he is assisted by the sympathetic work of pretty Mae Murray and David Powell, the featured players.

"Idols of Clay" brings together on a South Sea isle a young London sculptor whose faith in his career and in mankind shattered by an unscrupulous woman, has drifted to the tropics, and an innocent child of nature, the daughter of a pearl-smuggler. The girl falls in love with the handsome stranger. Later events lead to their separation, but finally, after the girl the dizzy heights of London bohemian society and the shadowy dens of the Limehouse underworld, they are reunited.

A torpid liver needs an overhauling with Herbine. Its benefits are immediately apparent. Energy takes the place of laziness, appetite returns, and the hour of rest brings with it sound, refreshing sleep. Price 60c. Sold by Hensler & Story. (adv)

ATHLETIC DAY AT H.S. WAS SUCCESS

Purcell Wins From Local Boys by Large Score of 11 to 2.

Taking the lead by scoring in the first inning and maintaining it by running up more scores each inning following, the Purcell High school baseball team defeated the Ada High school boys on the local diamond yesterday afternoon by a score of 11 to 2. The game was interesting, despite the fact that the score was one sided, and many long hits and good plays were made.

Errors were very frequent for both sides, but the Ada boys could not match the long hitting of their opponents. One home run was knocked by a Purcell batter. The Ada boys worked hard and although they played a losing game, they played it in a good sporty manner and will be better able to win the next game.

Have Inter-Class Meet.

The High school held its annual inter-class meet yesterday afternoon at the High school athletic field with every class strongly represented. The events consisted of hurdles, jumping, running, races, vaulting, shot put, javelin and other events. The seniors won the meet by a total of 59 points, the juniors made 24 points for third place, the sophs won second by a total of 26 points and the freshmen made a total of 13 points.

Seniors Win Most Points.

Several good plays were made and in some cases records of past years were reached. Men in all classes showed up well, and the school stands a good chance for a representation worthy of mention in the coming county track and field meet as well as the district meet.

The following is a list of the events and the class winning first, second and third places:

Pole vault—Seniors 1 and 2, freshmen 3.

Discus throw—Juniors 1 and 2, seniors 3.

100 yard dash—Seniors 1, sophs 2, freshmen 3.

220 yard dash—Freshmen 1, seniors 2.

440 run—Seniors 1, sophs 2, seniors 3.

880 run—Seniors 1 and 2, sophs 3.

1 mile run—Sophs 1, juniors 2, seniors 3.

Low hurdles—Seniors 1 and 3, sophs 2.

High hurdles—Seniors 1 and 3, sophs 2.

Running high jump—Juniors 1, seniors 2, sophs 3.

Running broad jump—Sophs 1, seniors 2, freshmen 3.

Shot put—Juniors 1, seniors 2, sophs 3.

Javelin throw—Freshmen 1, junior 2, sophs 3.

Relay race—Seniors won for five points.

Messrs. Cox, Vernon, Whipple and Felix had charge of the baseball, track and field events and Oscar Parker was official score keeper. Cal Sparks umpired the baseball game.

Farmers Taking a Great Interest in Association Now

The interest which the farmers of Pontotoc county are taking in the Oklahoma Cotton Growers' association was manifest at a meeting held at the district court room today, when more than 100 members and non-members of the association assembled pursuant to a call of the county chairman.

Speeches made by J. O. McMinn, president of the Pontotoc county farmers union and N. T. McCallister, state organizer for the association, explaining the good which will be accomplished for the cotton farmer by the association, were received with great enthusiasm by the audience and at the conclusion of the meeting most of those who were not already members, joined the association. Many of the men who joined took along with them additional sets of application blanks, which they will undertake to have their neighbors sign.

The permanent county organization was not formed at the meeting today, as had been planned. Notice has been received from headquarters to continue the taking of new members until the work is ordered stopped. It is said there are more than 500 members in Pontotoc county at this time and the most enthusiastic workers express the opinion that the work is only fairly well started. By cotton picking time, they say, the association will have upward of 2,000 members in Pontotoc county.

The 300,000 bales established as a goal when the organization work was started, has been reached, it is said, and the work is being continued merely for the purpose of letting those enter the association who have delayed the matter for various reasons.

Those who have not the money to pay the entrance fee may become members by signing an order authorizing the officials of the association to deduct the fee from the cotton marketed.

Rear Admiral Dailey Dead

(By the Associated Press)

EL PASO, Texas, April 9.—Rear Admiral Frank Harvey Dailey, retired, 69 years old, died suddenly at the Union Station here this morning while waiting for a train. He was on his way to his home in Gowanda, New York.

Cromwell Her Is Shriners.

(By the Associated Press)

DALLAS, Tex., April 9.—Frank H. Cromwell, of Ararat Temple, Kansas City, Missouri, was elected president of the Shrine Directors Association of North America today and Kansas City was chosen as the next convention city.

A. L. Fentem of the High school was in Holdenville yesterday and today acting as judge in a track and field meet. He returned to his home here this afternoon.

FINANCIAL RELIEF FOR THE FARMERS

Agricultural land is cultivated, improved and maintained to the best permanent effect when it is owned by the farmers who work it. And proprietorship is one of the strongest incentives for keeping ambitious citizens in the country. These advantages, with many of the conveniences obtainable in the city, should make farming and rural life, which have their own charms, decidedly interesting and profitable.

Two important steps to afford necessary financial accommodations to farmers have been taken recently by the Federal Government. The Federal Reserve act has been amended so that national banks may lend money on unencumbered farm land for five years. In connection with the Federal Farm Land Bank System, the government is arranging to provide a revolving fund of \$50,000,000 and to appropriate \$100,000,000 from the earnings of the Federal Reserve system. This amount of \$150,000,000 will be in addition to the \$40,000,000 of land bank bonds issued in April, and of which all but \$1,500,000 have been sold.

The base of each loan is still held at fifty per cent of the value of the land, but it is now permissible for any individual to borrow as much as \$25,000.

In time the immense subsidy furnished by the government will be reduced thru investments of private capital in land bank bonds. But the government is to be commended for manifesting generosity which will give the farmer the accommodation which he needs, revise interest in agriculture, better agricultural conditions, and increase farm production. The farmer is the mainstay of the nation.

THE QUESTION OF APOLOGY

"I promise you," said Mr. Harding, in accepting the Republican nomination for the presidency, "formal and effective peace so quickly as a Republican congress can pass its declaration for a Republican executive to sign."

After the "best Republican minds" in congress have been at work for about a year and a half trying to frame this "simple declaration," however, they appear to have become hopelessly split on the subject. It seems that the house Republicans now believe that the Republicans in the senate in 1920 led them into adopting a resolution that amounted to nothing less than an apology to Germany for declaring war against her. So they construe the senate resolution repealing the state of war. President Harding, who, as a member of the senate, voted for that resolution, is declared now to agree with the house that the measure he and the other Republicans in congress presented to President Wilson might give the impression of apologizing to the foe. In short, that its adoption was a case of leaping before looking.

Nevertheless, senate Republicans stand pat on their resolution for repeal of the war declaration. House Republicans are for a resolution that "simply" declares the war at an end. As pointed out, however, the situation is far from "simple." With each house having a simple resolution of its own and being simply determined to stand by it to the simple end, the resultant complexity is declared to have the administration deeply perplexed.

The seriousness of the Republican action in placing before President Wilson a peace resolution adopted by both houses in the sixty-sixth congress and containing all the imperfections—and perhaps more—that are now complained of, speaks for itself.

TRIALS IN NAME ONLY

The whitewashing of German war criminals at Leipzig, under the camouflage of trials of justice, has gone far enough to convince those who accepted in good faith the offer of the German government to try those accused of violations that it was merely another Hun trick. Every principle for which the allies fought in the war demands that they withdraw from the farcical proceedings.

Two petty officers were convicted and sentenced to a few months in jail. Then Lieut. Karl Neumann was placed on trial. Neumann sunk the British hospital ship Dover Castle, taking the lives of many disabled persons. The jury acquitted Neumann on the grounds that he was only acting under orders of his superiors and should not be held personally responsible for the crime of sinking a hospital ship in time of war.

If the principle under which Neumann was acquitted is to be the guide for future trials of persons accused by the allies, there is no reason why the farce should be continued. If the men higher up cannot be held responsible for the orders they gave to sink and to burn, it is the height of folly to seek justice through the conviction of petty officers or private soldiers in the German ranks.

Among the objectionable features of prohibition are the names of some of the soft drinks. The authors must invent these titles while riding on merry-go-rounds.

Lavish governmental expenditures and high taxes are incompatible with conservative business policy. No wonder Washington and the people are unanimous for economy.

Dr. Hugh Scott Is Made Assistant to Attorney General

OKLAHOMA CITY, June 21—Dr. Hugh Scott, a pioneer in the soldier's relief work and general inspector for the ninth area, Monday received the appointment of assistant surgeon-general with headquarters in Washington. He will leave for Washington Tuesday with his family.

Doctor Scott helped to organize the soldier's relief work at Houston, Texas. Afterwards he was appointed state supervisor of the work for Oklahoma and later general inspector. His work in Washington is expected to be under the provisions of the Sweet bill, which reorganizes under one head public health, war risk and vocational education—as the veterans bureau.

The Sweet bill, which includes the American Legion relief program, has passed the house of representatives. Doctor Scott received word from Senator Watson of Indiana, Monday that the bill is expected to pass the senate.

After President Harding's election it was rumored that Doctor Scott was to be appointed assistant secretary of the treasury. The public health service is a branch of the treasury department.

WOMAN RANGER FIRST TO PATROL IN YELLOWSTONE

(By the Associated Press)

BOZEMAN, Montana, June 23.—Miss Marguerite Lindsley, a junior student in Montana State college here, is the first woman ever to be named as ranger in Yellowstone National park. Word of her appointment has been received here.

Miss Lindsley is anticipating no difficulty in pointing out to tourists the beauties and the wonders of the government playground, however, for the geysers and the hot springs are as familiar to her as the drinking fountains and the fire plugs are to many a city dweller. She is on terms of acquaintance with most of the birds and the beasts, and knows every hill and valley in the big reserve.

The new ranger's father, C. A. Lindsley, is assistant superintendent of the park and has been connected with the government service there for 26 years. Miss Lindsley has spent every summer of her life in the park.

If you cannot eat heartily without an attack of indigestion, your stomach is weak. You need Prickly Ash Bitters. It is a fine digestive tonic. Besides, it rids the stomach and bowels of the impurities which bring on sickness. Price \$1.25 per bottle. Gwin and Mays Drug Co.

The Place to Go.

Beg Pardon—Our Error.
Dr. S. P. Ross, city health officer, calls the attention of the News to an error which occurred in quoting him in Wednesday's paper. The doctor was quoted as advising those who had not taken the typhoid serum to go to his office. What he said was that he advised those to go to the family physician or surgeon for treatment. As health officer for the city, he will give the treatment free to those who are not financially able to pay the small fee.

The News is glad to make the correction.

County and city officials hovered around bright fires in their offices this morning for the first time in years on June 23. Driving rain from the north early this morning sent all officials and their clerks hurrying to lower their windows and put on their coats to keep out the cold blasts.

Many offices in the city burned their gas heaters practically all day, many of them for the first time in their remembrance at this time of the year. "I don't know whether this is part of the gulf storm or not. If it is the thing has changed its direction and is ship-

First: It is sold at a moderate price. You save when you buy it.

Second: It has more than the ordinary leavening strength; therefore, you use less.

Third: There are no failures—no spoiled bakings. Nothing is thrown away because it always makes the sweetest, most palatable of foods.

Fifth: It's the best Baking Powder that can be produced. Was given highest awards at World's Pure Food Exposition, Chicago, Paris Exposition, Paris, France.

Sixth: It contains only such ingredients as have been officially approved by the United States Food Authorities.

The finest quality Baking Powder—at the most economical cost. Strictly pure—absolutely dependable. "The Biggest Bargain That Goes Into the Kitchen Today."

A pound can of Calumet contains full 16 oz. Some baking powders come in 12 oz. cans instead of 16 oz. cans. Be sure you get a pound when you want it.

Calumet Nat. Cookie Recipe
—1/2 Cup butter, 1/2 Cup sugar, 2 Eggs, 1/2 Cup flour, 1 Level teaspoon Calumet Baking Powder, 1/4 Cup chopped nuts, 1 Teaspoon lemon juice. Then mix in the regular way.

Offices Light Gas Heaters Today for First Summer Heat

County and city officials hovered around bright fires in their offices this morning for the first time in years on June 23. Driving rain from the north early this morning sent all officials and their clerks hurrying to lower their windows and put on their coats to keep out the cold blasts.

Many offices in the city burned their gas heaters practically all day, many of them for the first time in their remembrance at this time of the year. "I don't know whether this is part of the gulf storm or not. If it is the thing has changed its direction and is ship-

ping upon us from the other side." one county official said as he hurried to an inner office to bring out an old last winter's coat.

Business houses closed their vents from the outside, many of them turning on the gas for a while Wednesday morning to raise the temperature. Sweaters, raincoats and even overcoats were pressed into extra-session service as the thermometer hovered around a low summer temperature mark throughout the day. Street traffic was cut somewhat through the day by the driving rain.

PEARL WHITE HERE IN BIG FEATURE PICTURE

In "Tiger's Cub," the William Fox production starring Pearl White which comes to the American The-

ater today, story interest vies with excellent acting for first place among the many good things that can be said about this production which has the frozen North and the gold fields of Alaska for its background.

"Tiger's Cub," as a novel written by George Goodchild, was a pronounced success. It became one of the season's "best sellers."

Hard work acts unfavorably on the body that is bilious or constipated; producing low spirits, weakness and loss of energy. Prickly Ash Bitters is the remedy that men use as a system cleanser and invigorator. It creates energy, good appetite and cheerfulness. Price \$1.25 per bottle. Gwin and Mays Drug Co.

Ribbons for Every Purpose

From lingerie to hats is a far cry yet our extensive supplies of handsome Ribbons take care of both needs. The ingenious woman is making Ribbons serve many purposes this year. They are a ready and effective trimming for frocks and millinery. Sashes of exotic, vivid beauty are in great demand. A smart Ribbon sash will "make" the most simple of frocks and when the same Ribbon appears on the hat one has indeed a "costume." Ribbons of every kind are one of the features of our Ribbon Department.

Custer's Monument to be Unveiled in Ceremonies June 25

(By the Associated Press)

HARDIN, Montana, June 23.—The monument in memory of General George A. Custer, to be unveiled on June 25, the forty-fifth anniversary of the battle of the Little Big Horn, has been completed in the city park here. The memorial, paid for by popular subscription of citizens of Hardin and Big Horn county, is of Montana gray granite and bears two bronze plates, one showing Custer's profile and the other giving the date and place of his birth and his military record.

Plans for the celebration, which will include a reproduction of the massacre of Custer's command by Indians enacted by United States cavalrymen, American Legion members and Crow Indians, provide also for an exhibit of several historical subjects, it is announced by the Custer Battle Anniversary association, in charge of the affair. They will include one of Custer's original regimental flags and what is declared to be the first full-page newspaper account of the battle, published immediately after it was fought.

The battle is to be fought on the site of the original conflict, now a government reservation.

IN SOCIETY

Mr. and Mrs. E. P. Perkins report the arrival of a seven pound boy at their home this week.

Mr. and Mrs. Paul Cox and son, Paul Jr., are visiting Mr. Cox's father at Roff.

Richard Couch and Jack Warren are visiting their aunt, Mrs. John Brents, at Porter, Okla.

Mattie Sue Minnier of Pair, Ark., is visiting Mrs. Olive Couch of this city for a few days.

Mr. Faust, city superintendent of schools at Shawnee, has been in the city of the past few days looking after school matters and visiting friends.

Entertain With Dinner.

Mr. and Mrs. A. Linscheid entertained the members of the McBrien party with a 6 o'clock dinner at their home on South Francis last evening. The McBrien party is here to give the rural conference work. The dinner was a success and a delightful social hour was enjoyed.

500 Club Meets.

The regular meeting of the 500 club was held at the home of Mrs. A. W. Parker this morning with only regular members present. The hour was spent in playing bridge.

Entertain With Bridge.

Miss Vera MacMillan entertained with a shower and bridge party at her home, 609 East Twelfth street, Tuesday afternoon in honor of Miss Gladys Ridling whose marriage to Mr. George W. Dodd, Jr., was solemnized Wednesday morning at the Baptist church.

The house was beautifully decorated with sweet peas and four bridge tables were laid. A number of friends of both Miss Ridling and Miss MacMillan were present. They were Mesdames M. Z. Thompson, Bob Kerr, Paul Payne, Ben Tolbert, Whit Fentem and Misses Dorothy Duncan, Nell Hodge, Lillian Hodge, Beatrice Craig and Emma Ligon. Out of town guests were Miss Frances Sanford, Oklahoma City; Mrs. Neal, Hugo; Miss Mary Russell, Bonham, Tex., and Mrs. Charles Griffith, Oklahoma City.

TWO LOCAL PITCHERS MATCH SKILL IN GAME

That the Ada ball club has two pitchers equally matched was proven in a game played at Asher yesterday between the Asher and Konawa teams in which the two left handed pitchers from Ada matched their skill. Neither pitcher knew that he was to pitch against the other until a few hours before the game started.

Lefty Williams was mound man for the Konawa team, while Lefty Waner twirled for Asher. Each succeeded in getting 12 strikeouts, allowed only four hits each, and only two errors were made in each game. The score was 1 to 0 in favor of Asher.

McCLINTOCK HEARING DELAYED IS REPORT

Word was received here today of the continuation in the criminal court of appeals at Oklahoma City of the habeas corpus hearing in the case of the state vs. Frank McClintock, of this county, charged with the murder last May of George Martin at Roff.

County Attorney Wayne Wadlington who has been busy with the case in Oklahoma City notified his office this morning of the continuance, on account of the illness of a sister of Justice Doyle, who is sitting on the habeas corpus hearing.

McClintock's preliminary was held here. He was allowed to make bond for \$10,000 by District Judge J. W. Bolen and later his bond was revoked and he has been in jail since. The habeas corpus hearing is to reobtain bond for McClintock.

McClintock, it is charged, murdered and robbed Martin last May, leaving the man in a park at Roff to die. Officers found Martin and brought him to the local hospital where he died without telling who his slayer or slayers were. Martin told officers however, that he was "robbed and shot," then taken to a park in his own car and left to die.

ADA CLUB NOW READY FOR PURCELL SUNDAY

Ada will be prepared to meet the Purcell ball club with a full line-up Sunday when the Purcell team visits this city for another game. The locals suffered defeat by a score of 5 to 3 at Purcell last Sunday and is preparing to return favors to the visitors in this tilt.

It is reported that a special train will carry the Purcell team and fans to the city. The game will be called at 3:30 and promises to be interesting. Errors in the last game was one of the chief causes of Ada losing, but with strenuous workouts they have been better prepared than ever for the next game. The grounds have been put in a good condition for the game and if the rain does not continue long enough to spoil the grounds, everything will be in first class shape Sunday.

You will save money by reading the ads.

JOY BROUGHT INTO HOME

By Lydia E. Pinkham's Vegetable Compound, Restoring Mrs. Benz to Health

Altoona, Pa.—"I am writing to tell you what Lydia E. Pinkham's Vegetable Compound has done for me. We have had six children die almost at birth. From one hour to nineteen days is all they have lived. As I was going to have another, I took a dozen bottles of your Vegetable Compound and I can say that it is the greatest medicine on earth, for this baby is now four months old and a healthier baby you would not want. I am sending you a picture of her. Everybody says, 'That is some healthy looking baby.' You have my consent to show this letter."—Mrs. C. W. BENZ, 131 3rd Ave., Altoona, Pa.

No woman can realize the joy and happiness this healthy babe brought into the home of Mrs. Benz, unless they have had a like experience.

Every woman who suffers from any ailments peculiar to her sex, as indicated by backaches, headaches, bearing-down pains, irregularities, nervousness and "the blues," should not rest until they have given Lydia E. Pinkham's Vegetable Compound a trial.

Speaks on Citizenship

Rev. John W. Inzer, national chaplain of the American Legion, has begun a six weeks speaking tour on which he will speak chiefly upon the subjects of Americanization and citizenship. The following cities are included in his itinerary: Nashville, Memphis and Jackson, Tenn.; Little Rock and Pine Bluff, Arkansas; San Antonio, Austin, Dallas, Fort Worth, Abilene, Texas; Oklahoma City, Okla.; Los Angeles, San Diego, San Francisco, California; Portland, Oregon; Salt Lake City, Utah; Denver, Colorado; Topeka, Kansas; Kansas City, Mo. and Paducah, Kentucky.

To Take Indians

Ben D. Locke, of Antlers, commander of the Legion post in that city, plans to lead a company of full-blood Indians as a part of the Oklahoma delegation to the national convention at Kansas City next October. A nucleus of 30 Indians has already been obtained. Many posts of the eastern half of the state are planning to send some of their Indian members in the company.

Camp Blanks Available

Application blanks and full information concerning the citizens' military training camps in the eighth corps area may be had from the Victory Medal office, 304 Post Office building, Oklahoma City, according to an announcement by Earle M. Simon, state adjutant of the American Legion.

License Issued.

A license to wed was issued by the court clerk's office Wednesday to E. J. Fletcher, 21, Ada, and Miss Monnie Ford, 16, Ada.

J. M. Hearn and family and B. J. Hearn arrived in the city yesterday for a visit with their brother, E. C. Hearn and family of this city. Will spend a week here before returning to their home in Tuscaloosa, Ala.

Your children will not catch disease from flies from Bert Heap's Sanitary Ice Cream Wagon. 6-10-10t*

T. A. Milstead, district agricultural agent from Stillwater, and Mr. Gordon, connected with the state board of agriculture, at Oklahoma City, were in the city today visiting County Agent J. B. Hill and looking after business matters.

Entertain and instruct the children at home. See Webb Book Shop. 6-23-3t

Prof. A. D. Bolton is displaying a copy of the New York Herald of Saturday, April 15, 1865, giving the account of the assassination and death of President Lincoln. The newspaper has many distinct features, all of which are unlike those used by most newspapers of the present time.

The Ada Hide and Produce company loaded out a 16,000 pound car of chickens Wednesday and they went out to New York last night. Pontotoc county is becoming a noted place as the producer of good poultry, according to those who buy and ship birds.

War Profiteering Pirate Played in Speech to Senate

(By the Associated Press)

WASHINGTON, June 23.—War time "profiteer pirates" were played in the senate today by Senator McCumber, republican of North Dakota, in an address advocating his bill for giving adjustment compensation to former service men. The measure reported favorably by the finance committee, would be an act "not only of gratitude but of justice," he said.

"Great as it seems to be when crystallized into dollars and cents," said the senator, "we are compelled to admit that it is much less than is actually due the soldiers selected for military duty and compared with that which was received by countrymen who performed civil duties only."

Better than we claimed. Outwore three others!

"Diamond Tires have given us better service than you claimed. One went 10,000 miles without being removed from the wheel, during which time it outwore three tires of other makes, which cost considerably more than Diamonds."

—Kalispell American Laundry Co., Kalispell, Montana

PICKLES

Notice of the Public Sale of Oil and Gas Lease on Certain Public Lands of the State of Oklahoma.

The commissioners of the land office of the State of Oklahoma, will receive sealed bids for the leasing of the hereinafter described tracts of the public, state and school lands of the State of Oklahoma for oil and gas purposes. All leases will be made upon bids to be opened at the office of the Secretary to the Commissioners of the land office, Oklahoma City, Oklahoma, at the hour of 2 o'clock p. m. on July 19, 1921, and said leases will be sold and such sales be made in accordance with the terms and conditions as hereinafter set out.

Each of said tracts will be leased separately to the highest and best bidder. Each bid shall be accompanied by a certified check or bank draft in the amount of One Thousand (\$1000.00) Dollars payable to the commissioners of the land office, as

a deposit of earnest money to insure the execution of the lease by the bidder and the furnishing of the bond as required by law. Provided, that one deposit in the said amount of One Thousand (\$1000.00) Dollars, shall entitle the bidder to bid on one or all of the said tracts. Said sum of One Thousand (\$1000.00) Dollars, deposited by any bidder as earnest money in compliance with this requirement shall be returned to said bidder if the bid of such bidder is not accepted by the commissioners of the land office.

Bids upon oil and gas leases upon each of said tracts will be received separately, and each of said tracts will be leased separately for a royalty of one-eighth (1-8), of the oil and gas produced thereon, and to the highest responsible bidder subject to the right of the commissioners of the land office to reject any and all bids.

The lands herein described will be leased for a period of five (5) years and as long thereafter as oil and gas may be produced thereon in paying quantities; said lease will further provide that if no well is completed upon any tract so leased within one year from the date of the lease, the lessee shall pay to the State of Oklahoma as annual rental in advance the sum of One (\$1.00) Dollar per acre, which payment shall operate to defer the completion of the well during the term of the lease and said leases will contain such other and further terms and conditions as are by the law of the State of Oklahoma authorized and provided.

All bonuses bid by the bidder where the title is not in question, shall be payable in cash unless accompanied by drilling contract to commence within 120 days from date of lease. Bonuses bid in oil will be recognized on property where the state's title is in question. No school land shall be leased for less than Two (\$2.00) Dollars per acre cash.

Each bid must be on file or delivered to the secretary to the commissioners of the land office, upon the hour and date set for the opening of said bids. If bid be sent in by mail, it must be sealed in an envelope and marked thereon, "bid for Oil and Gas Lease," and placed inside another envelope and plainly addressed to the secretary to the commissioners of the land office and marked thereon, "Oil and Gas Bids."

Leases on river-beds are to be made in accordance with the rules and regulations of the commissioners of the land office and on forms approved by the commissioners and the federal court having jurisdiction therein.

The number and descriptions of the tracts of the land to be leased by the commissioners of the land office, are as follows:

Pottawatomie and Pontotoc Counties.

All that portion of the bed of the South Canadian River between the meander lines thereof throughout its course in

300 Congressmen Are College Men Statistics Show

(By the Associated Press)
WASHINGTON, June 23.—(Capital News Service)—The fact that around 300 members of the new congress are graduates of colleges, and others of advanced institutions of learning, these representing approximately three-fourths of the entire membership of the two houses, is being taken as a sure indication of the trend toward education.

The new congressional directory shows that the men who were elected in the fall of 1920 represent all classes of people, in so far as their callings are concerned. Also, as indicated in the biographical sketches, the various states are well represented in the native sons, and one daughter, listed in them.

The president has but recently issued a statement in which he urges the young men of the country to take advantage of training camps to be established and operated throughout the country under the auspices of the war department. These training camps will supplement the educational and vocational training enterprises of the army, which have accomplished results of an excellent character during the past year. Through it thousands of young men who never before had enjoyed opportunities for acquiring learning have been given the equivalent of a high-school education.

RELIGION OF "DONT'S" SLAMED BY PASTOR

(By the Associated Press.)
DES MOINES, Ia., June 23.—The young people of today, the targets of so much criticism at the present time, are not the ones to blame for their attitude, Rev. Bernard C. Clausen, pastor of the First Baptist church of Syracuse, N. Y., declared last night at the Northern Baptist convention in this city.

"Men are charging that the new generation is irreligious," he said. "If this be so, it is futile to spend time in blaming the youngsters. The only sane thing for religious leaders to do is to find out what 21 wants in its religion."

The thing that the new generation want most, he declared is fearlessness. "It demands a religious faith which prescribes no books, prohibits no courses of study, bans no contacts with the ever-widening horizons of the world's knowledge, erects no walls about itself, but frankly and fearlessly answers every fair question."

"The nagging, 'don't' of wornout pedagogy," is not the religion of 21, Dr. Clausen affirmed. It insists that religion treat of life, rather than of death. "The new generation has seen too many of its contemporaries die, at the sad height of a glorious adventure, to feel the need of a religion which relieves the call of death. It demands a faith which is willing to be judged on the way it prepares men for life."

When religion is able to meet these essential requirements of youth, the new generation will embrace it, Dr. Clausen declared.

Don't expect to get through a hot summer of hard work without a sick spell, if you start with your system full of impurities. To avoid a break-down in the busy season begin now taking Prickly Ash Bitters, the remedy for men. It will purify the blood, liver and bowels and put the system in healthy condition. Price \$1.25 per bottle, Gwin-Mays Drug Co.

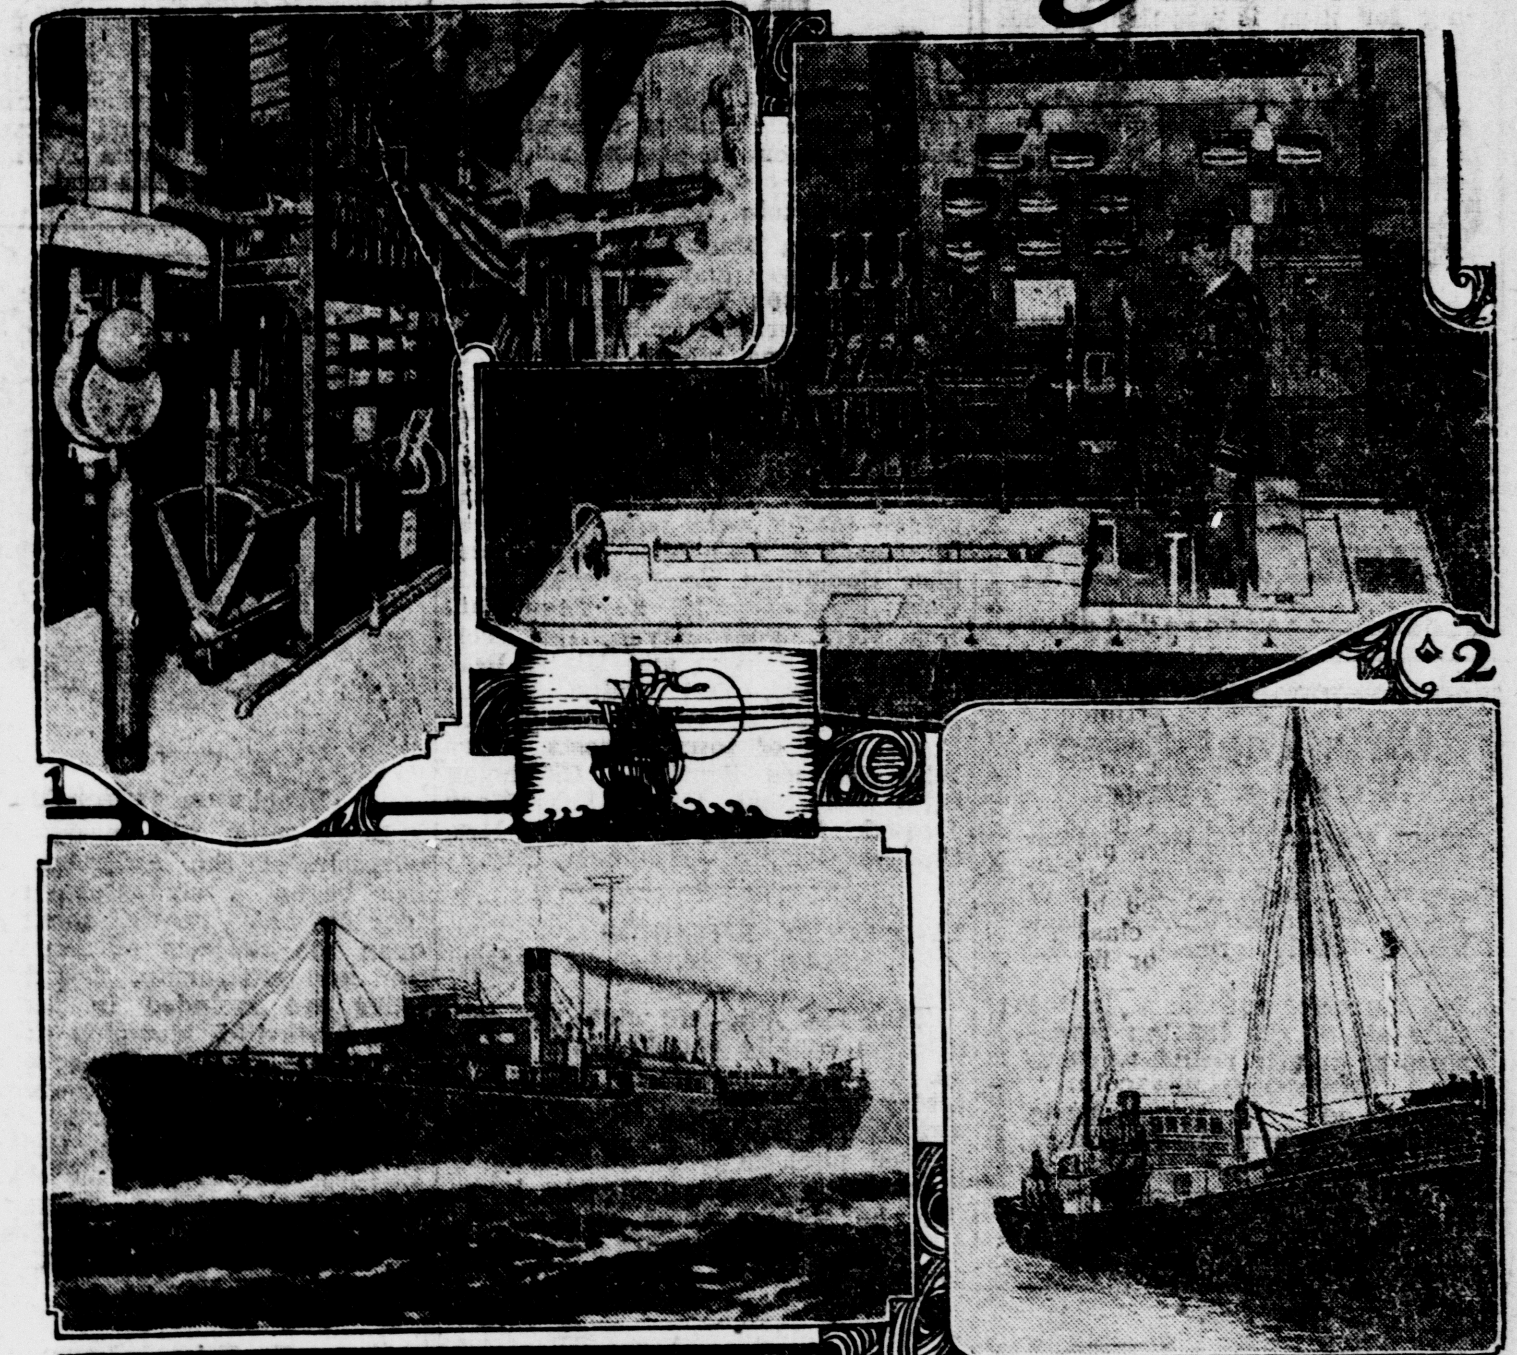

Card of Thanks.

We wish to express our appreciation to the many friends for their acts of kindness and beautiful flowers during the illness and death of our dear grandmother. We also wish to thank the doctors and nurses at the hospital for their watchful care and kindness to her. Mr. and Mrs. A. M. Bailey, Mr. and Mrs. R. A. Strickland, Mr. and Mrs. Chas. Burnett.

Dr. Warner, D. O., the eyesight specialist, will visit Ada every third week; office with Peoples Drug store, 219 East Main street. Have your eyes examined and proper glasses fitted. No extra charge for residence calls. Phone 662 for appointments and date of next visit. 6-22-Imo.

ENID, June 23.—Headquarters of the United States Grain Growers Association for the district comprising Oklahoma and parts of Kansas, Arkansas and Texas will be located here if the plans of D. T. Meek, county farm agent, are successful.

Putting to Sea with Electricity

Photographs by General Electric Company.

1. Electric control apparatus showing maneuvering levers and signal bell from bridge, for merchant ship engine room.
2. Complete model of merchant ship electric drive machinery operated by control panel in background.
3. S. S. Invincible, 2nd of fleet of 12 electric merchant ships under the control of the U. S. Shipping Board.
4. First commercial application of Diesel engine electric drive in the United States. Electric fishing trawler "Mariner."

By J. E. JONES

U. S. Press Association, Washington, D. C.

LITTLE shipbuilding is in progress today except in the Navy, but several crafts are being overhauled to have their worn engines replaced by Turbine-Generators and Motors.

Ships ranging from fireboats and fishing trawlers to great freighters and huge battleships have been electrified.

Thirteen electrically driven merchant ships are being outfitted or are in operation.

Nineteen electric U. S. warships are either being equipped or are in service.

The advantages of the electric drive have been adopted by the Coast Guard Service and four cutters are being equipped with electric propulsion equipment.

The first two cutters, the "Tampa" and "Haida," have already been launched in San Francisco.

The total electric ship tonnage is 925,000 and the total horsepower, 1,600,000. These ship power plants could supply light and power for seven cities of the size of Boston.

The world is getting used to seeing its land transportation systems give up horse cars, and steam locomotives, and the substitution of electricity as a propelling medium, and today water transportation is passing through the same cycle of changes. Equipment on ships to enable wind to drive the craft and the older type of propulsion unit—the reciprocating steam engine—is being discarded, while electric generators and motors take their place.

Turbines transmitting their power through speed reducing gears to the ship propeller—making steam's finest record on sea—have by no means been superseded, yet electric motors have won such recognition by their performance on such vessels as the battleship New Mexico that they are now being prepared for installation on fourteen merchant ships and nineteen warships.

As time went on man learned to build better and better sea craft. The raft preceded the dugout, which was followed by a seaworthy boat propelled by oars and a single bellying sail. Oars were finally superseded and for hundreds of years sailing vessels held sway.

Then came the reciprocating steam engine. At first its adoption was not general, as the clumsy wooden paddle wheels which were

revolved by the engine were often smashed by the heavy seas; but by the invention of the screw propeller and the further development of the compound engine, steam began chasing the white winged sailers from the sea.

For several years the reciprocating engine was the popular drive for men of war and merchant ships, but with the perfection of the steam turbine, marine men turned from the old engine to the compact turbine drive in which the rotary motion of the turbine was transmitted to the propeller either direct, in a few fast ships, or through speed reducing gears, such as are now common.

The idea of driving a huge merchant ship through the seas with the ease with which a motorman drives a street car may seem almost humorous, but today ships are riding the waves, and many more are to be equipped, whose basic scheme of drive and control is similar to that of a car.

The first trial of electric drive on board ship was made in 1908 on two Chicago fireboats. It was an unqualified success on the little fire fighters.

The drive was next used by the United States Navy on the collier Jupiter, now the U. S. S. "Langley," a mother ship for airplanes, and its success on this ship led to its adoption by the navy as a standard drive on the new battleships and cruisers now being built.

A comparison of the operating records of the New Mexico with those of her sister ships, the Mississippi and Idaho, brings out some interesting facts. Steaming at low speed the turbine driven sister ships burn 20 per cent more fuel than the electrically driven New Mexico, while at full speed they burn 32.2 per cent more, a convincing argument for electric drive. Greater and more flexible power is attained with far simpler mechanism, requiring fewer operatives. It is even possible in emergencies for this huge ship to run at cruising speed with an engine room crew of one man, the electric mechanism requires so little attention.

Today, we are watching with interest the development of our merchant marine. The maiden trip of the 440 foot "Eclipse," a steamer converted into the first electrically driven cargo carrier in the United States, is convincing proof of the fitness of this type of drive for merchant ships. Her electric equipment consists of a steam turbine

and 2,600 volt generator driving a 3,000 h. p. motor at 100 revolutions per minute and suitable control apparatus for maneuvering the vessel. A five thousand mile trip through heavy seas was finished without any mechanical trouble and with excellently maintained speed.

An engineer aboard the "Eclipse" on her five thousand mile run in a report to the General Electric Company, said: "I have had many years' seagoing experience in different types of vessels with various equipments, but I have never been on any vessel which showed such marked steadiness and was so entirely free from vibration."

"I wish to add that the congenial and harmonious feeling among the entire crew would be hard to find on any ship, which I would say was due to the satisfactory performances and results shown."

Following the lead of the "Eclipse," the sister ship "S. S. Invincible," equipped with the electric drive, has just completed her sea trials with most gratifying results.

Another interesting development in ship propulsion apparatus is the generation of electric current by a generator driven by a Diesel oil engine instead of a steam turbine. The trawler "Mariner" was the first craft to adopt Diesel electric drive. She was kept in service when steam trawlers were tied up at the dock due to the poor market for their catch. Yet the "Mariner," with her steady, economical electric drive went out and made a profit.

A Diesel electric ship larger than the "Mariner" will be in operation as soon as a recent contract has been carried out. It calls for the refitting of the motor ship "Fordonia" with Diesel electric drive. She is a single screw freighter 257 feet long. Her new equipment will consist of twin Diesel engines connected to two generators furnishing power to an 850 h. p. motor coupled directly to the propeller shaft, and a complete control system arranged for engine room control. This type of drive will be installed to secure for the larger ship all the advantages which it brought to the trawler "Mariner."

The electric drive ship is here to stay. It has established itself in the estimation of leading marine experts, and engineers expect the next ten years will show an even greater growth than the last decade has shown.

TWO FLIERS KILLED IN BOMBING FLIGHT

(By the Associated Press)

WASHINGTON, June 23.—Two of the leading fliers of the army air service, Capt. Howard T. Douglas and Lieut. Marl J. Plumb, were drowned in Chesapeake Bay Wednesday after a collision of their planes in the course of a bombing raid directed at the bulk of the old battleship San Marcos off Tangier Island.

Reports received by the war department from Langley field, Virginia, said the accident was one of the most peculiar on record. Lieut. Plumb, flying a fast single seat plane, was dropping bombs and Captain Douglas, in a similar machine, was observing the raid from above. Plumb's plane had just dropped a bomb and was climbing upward as is the custom after releasing the weapon, when it struck Captain Douglas' machine, cutting off its tail.

GULF STORM NOW PASSING INLAND

Hurricane Leaves Coast; Little Damage and no Lives Lost.

(By the Associated Press)

DALLAS, June 23.—After covering the Texas coast for more than 200 miles from the mouth of the Rio Grande river near Brownsville to Port Arthur, the gulf hurricane which has been raging since Tuesday evening, apparently passed inland over Matagorda Bay last night, leaving in its wake comparatively little damage. Reports from coast points early today indicated that the wind was abating and the high tides receding. Heavy rainfall which accompanied the disturbance fell over Texas as far north as Dallas during the night and continued today. From no point was a loss of life reported.

The greatest storm damage reported was to small shipping in the vicinity of Freeport and Port Aransas. Crops near the coast in the affected areas suffered considerable damage, particularly from the rain, the report said. Wire communication was also said to be crippled in sections of the coast country, especially in the vicinity of Victoria, but normal service is expected soon, reports today said. Rail traffic on lines skirting the gulf is more or less delayed.

Clearing Away Debris GALVESTON, June 23.—The clearing away of gravel and small stones thrown on the sea wall boulevard by the wave action yesterday was the only rehabilitation work found necessary here today after the passage inland of the gulf hurricane. The sun rose clear and warm this morning. Ships were moving in and out of the harbor and business activities returned to normal.

State News

KINGFISHER, June 23.—The cornerstone for the new memorial hall to Kingfisher veterans of the world war was laid Wednesday. The ceremony was conducted by the local post of the American Legion and an executive of the state department.

MUSKOGEE, June 23.—A campaign to raise \$15,000 to be used in repairing and constructing new buildings for the Oklahoma Free State Fair will be held June 23. Twelve teams composed of four men each will canvass the city.

FREDERICK, June 23.—Farmers in the western part of Tillamook County are figuring on an average of 15 bushels of wheat per acre. S. F. Johnson, county agent, reports. The eastern part is expected to return a lower yield, Johnson added.

DUNCAN, June 23.—A general get-together and basket dinner will be features of the Fourth of July celebration planned for Duncan. Ball games and other varieties of amusements will be held in the morning and afternoon.

ALLIES REFUND LOAN BILL INTRODUCED IN SENATE

WASHINGTON, June 23.—A bill employing the plans of Secretary Mellon of the treasury department for refund loans to be made to the allies was introduced in the senate today by Chairman Penrose of the financial committee, to whom the bill was referred.

The blanket authority given the secretary under the bill which the president approved includes the right to reconvey or extend plans on international payment, to account for security in payment and to secure all claims not now secured.

NEW HATS AFFECT RIBBON STREAMERS

The large hat with the drooping brim is the mode for midsummer and it must have a long, single streamer of some gorgeous ribbon to be ultra smart. Here is a very charming model of blue straw lined with flesh-colored georgette. Flowers and a blue ribbon of baronette satin form the trimming.

FRANKLYN FARNUM MAKES APPEARANCE IN NEW FILM

Franklyn Farnum, who is considered as being about the most reckless of movie athletes, certainly outdoes his reputation in his latest picture, "The Fighting Stranger," which is now holding the place of honor on the screen of the McSwain Theater.

Wild riding, marvelous straight shooting, death defying leaps, tight rope walking across canyon mouths, are but a few of the stunts which this young Hercules performs in his efforts to supply excitement to those who take the thrills by proxy.

Farnum, who is not a lightweight by any means, ambles around mountain peaks and on the edges of precipices with the dexterity and carefree manner of a goat. He shines up a tree and drops into a rushing automobile which is running uncontrolled straight for edge of a cliff with the same sangfroid that he sits down to dinner. Surely the gods must have him under their especial protection, for if ordinary mortals attempted to do one-tenth of the things which he does every day, the insurance companies would go bankrupt. Also showing "The Roseland Maids," in vaudeville, harmony singers, funny comedians, violin artists, and a dandy chorus that can sing and dance.

DENBY ORDERS SIMS TO MAKE WRITTEN REPORT

(By the Associated Press)

WASHINGTON, June 23.—Rear Admiral William Samuel Sims reported in person to Secretary Denby today that he had been misquoted in reports of his remarks made in London touching on Irish sympathizers in the United States. The officer was recalled from a leave of absence to explain the remarks and Secretary Denby ordered him today to make a written statement giving the correct text of what he said.

Says Ada Field Is Good

C. J. Skirvin, formerly connected with the American Oil and Refining company here, was in Ada today on a business trip from his headquarters in Oklahoma City.

Mr. Skirvin, who is intimately acquainted with the oil industry in practically all parts of the state, is enthusiastic over the prospects in the Ada fields and in Pontotoc county promises in general. Although the present heavy and continual reductions in the prices of crude have had a bad effect on the oil business everywhere, he is convinced that with a restoration of the community to near its old price, the oil industry will be renewed with even more vigor.

He lived here for some time and has many friends in this city.

BREAKFAST TIME WITH U. S. BOYS STILL ON RHINE

The camp near Sayn. This photo of the camp of the Third Battalion, Fifth Infantry, of the American forces of occupation in Germany, was taken in the morning as the boys turned out for "chow." The camp is located at their rifle range near Sayn, six miles north of Coblenz, Germany.

HONOR KING COAL IN 3-DAY STUNTS

Henryetta Opens Carnival With Aerial Salute of Twenty Bombs.

(By the Associated Press)
HENRYETTA, Okla., June 23.—An aerial salute of twenty bombs which sprayed flags and floral designs over the city opened the 3-day celebration of the first annual State Coal Exposition and King Coal Carnival here at 2 o'clock this morning. A signal gun fired at that hour was to release all the mechanisms that had been laid in commemoration of the city's first exhibition to its foundation and natural resource—coal.

Preparations were made for an attendance of several thousands of persons at the 3-day performance and members of the committee who had this work in charge announced today indications pointed toward a much larger representation.

The pageant which opened today was organized with a view of making it a permanent affair. Through the efforts of all local civic and commercial societies one of the most elaborate displays ever attempted was declared ready this morning for participation in the show. The Carnival is fashioned after the Mardi Gras at New Orleans and the Veiled Prophets at St. Louis.

Bands will present continuous performances during the exposition while circus, vaudeville and stunts will go hand in hand with the other entertainments. Boxing exhibitions are also on the program.

Together with the pageant the coal miners of the state have joined in the Carnival with their state aid meet and this phase has added another attraction to the exposition. The first aid contests staged by the miners will be supervised by representatives of the United States Bureau of Mines.

"King Coal" and his royal pageant of forty floats, surrounded by jesters, bands and mimic performers will fall in line for the parade Saturday, which is expected to be the climaxing event of the celebration. Horsemen, horsewomen and 2,000 miners in costume will parade. A chorus of 200 voices will sing during the crowning ceremonies of "King Coal" at the city park in the afternoon. A banquet, for which 2,000 special invitations have been sent out, will take place at 8:30 p. m.

All homes in Henryetta have been thrown open to care for the visitors.

Control of Packers by Congress Sought by Labor Petition

(By the Associated Press)
DENVER, June 23.—The convention of the American Federation of Labor called upon congress to enact legislation to control the meat packing industry of the country.

Officials of the Kansas Mine Workers organizations were commended by the convention today for their stand against the Kansas industrial court law. Moral and financial aid was voted the men for "so courageously opposing this law in the face of injunctions and prison terms and preventing the law from taking effect, thereby fighting the battle of organized labor."

DAWES CALLS IN FINANCIAL BRAINS

But Provisions of Congress Inadequate for Pay, He Says.

(By the Associated Press)
WASHINGTON, June 23.—Chas. H. Dawes, of Chicago, chosen by President Harding to head the government budget system, announced today after a conference with the president that he would call on a number of experienced business men to serve in the budget bureau without pay because he considered provisions made for that by congress as wholly inadequate.

Mr. Dawes declared in his statement that if the budget system was to be successful, it must rely on "something else than the pitiful machinery provided by law."

"One might as well be provided with toothpicks," added the statement, "with which to tunnel Pike's Peak."

Mr. Dawes said that he was going to ask that two army officers distinguished for organization work in the American expeditionary forces be detailed to act as assistant directors.

The two army officers are Brigadier General G. Van Horn Moseley, formerly of Pershing's headquarters in France, and Colonel Henry Miser formerly in the service of supply. Both were associated with Mr. Dawes in France.

Entire State Gets Continued Rain Is Report of Bureau

(By the Associated Press)
OKLAHOMA CITY, June 23.—Rain fell over practically the entire state during the 24 hour period ending at 7 a. m. this morning, according to a report issued by the United States weather bureau here. Rain is continuing in most places, but no records have been made since 7 a. m. According to the bureau the rain will continue today with a probable clearing up tomorrow. The gulf storm, which early today centered over northern Texas was assigned by the bureau as the cause of the precipitation in Oklahoma.

The lightest rainfall was in the wheat sections, the extreme southwest and the extreme northwest receiving only light showers, as reported by the bureau.

Automobile Tires are Getting Better

One of the noteworthy features regarding the manufacture of automobile tires in this country is the fact that during the last five years tires have improved so greatly in quality that the average number of miles used on an automobile during a year has dropped from five to considerably under four.

This drop has come, too, in the face of an increase in winter driving so large as to be a vital element in the calculation. Many cars now operate twelve months in the year but in spite of this increased period of service, the average annual consumption of tires per car has steadily fallen.

With the return to normal times and with money less plentiful car owners are certain to watch their expense bills more closely. The exercise of only a moderate degree of care by the car owners will lift the average mileage secured from tires to a point many thousands of miles above any hitherto reached.

So far as known, the best record ever made on a set of four tires was that of a Boston merchant who got 39,152 miles on a set of United States Royal Cords. He attributed this phenomenal record to the care given to the tires by his chauffeur.

In The Oil Fields

The Carter-Lowery-Laselle interests will start drilling on the No. 1 on the Corbin farm NW NW Sec. 4, by the first of next week, officials of the company announced today.

The Pontotoc Syndicate will start drilling the first of the week on No. 1, the Hatcher farm, in the NW of the SW quarter in Sec. 4. The Abernathy-Lane-Trust expects to start operations soon in the SW SW of the NE of the same section and G. E. Nance on the Haggard place, NW NE of Sec. 4.

In the District Court of the United States for the Eastern District of Oklahoma.

In the matter of R. L. Rollins, Bankrupt.

In Bankruptcy No. 2323.

To the Honorable R. L. Williams, Judge of the District Court of the United States for the Eastern District of Oklahoma:

R. L. Rollins of Bebee, in the county of Pontotoc and state of Oklahoma in said district, respectfully represents:

That on the 24th day of February, last past, he was duly adjudged bankrupt under the Acts of Congress relating to bankruptcy, that he has duly surrendered all his property and rights of property, and has fully complied with all the requirements of said Acts and of the orders of the court touching his bankruptcy.

Wherefore he prays that he may be decreed by the court to have a full discharge from all debts provable against his estate under said Bankrupt Acts, except such debts as are excepted by law from such discharge.

Dated this 17th day of June, A. D. 1921.

R. L. ROLLINS, Bankrupt.
Order for Hearing Upon Application for Discharge

The above styled proceeding having been on the 21st day of June, 1921, referred to me as Special Master to ascertain and report the facts upon the application of R. L. Rollins, party to said proceeding, for discharge in bankruptcy; Now on this 23rd day of June, 1921, upon reading the foregoing petition, it is ordered that a hearing be had upon the same on the 28th day of July, 1921, at 10 o'clock A. M., before me as Special Master aforesaid, at my office in the City of Ardmore, in said district; that notice of said hearing be mailed to all known creditors and other persons in interest, and published in the designated newspaper in the County of Pontotoc, the county of the Bankrupt's residence, and in said district; that said creditors and persons in interest appear at said time and place and show cause if any they have, why the prayer of the petitioner should not be granted.

In Witness Whereof, I hereunto set my hand as Special Master, this 23rd day of June, 1921.

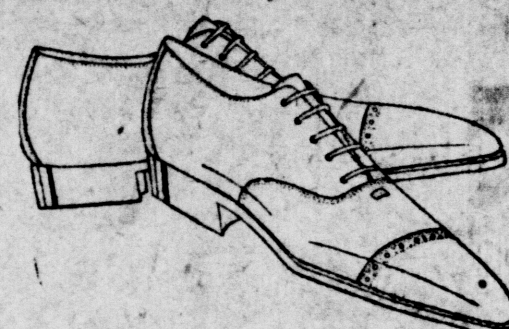

R. McMILLAN, Special Master
6-23-11. Ardmore, Okla.

GOVERNOR WOULD SPEND \$25,000.00 BOOSTING STATE

(By the Associated Press)
OKLAHOMA CITY, June 23.—Governor Robertson, speaking before the Oklahoma City Advertising club here yesterday, advocated the appropriation of \$25,000 to be used to advertise Oklahoma. According to the governor advertising of the state would be a benefit in two ways, in that the taxpayers would know what their money was being used for, and inhabitants of other states would find out about Oklahoma.

The governor expressed the belief that the legislature in the near future would appropriate funds for such advertising.
